DETAILED ACTION

Election/Restrictions

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- a vehicle
- an emulsifying agent
- an antioxidant
- an encapsulating agent
- a surfactant
- an emollient
- a humectant
- a thickener or viscosity invreasing agent
- a detergent
- a cleaning agent, and
- a wax

Applicant is required, in reply to this action, to elect a single species of each species above to which the claims shall be restricted if no generic claim is finally held to be allowable. If such species is not present in the elected embodiment, Applicant must state respond by informing the Office that a certain species is not present in the elected

Art Unit: 1614

embodiment. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The following claim(s) are generic: 1 and 6-30.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: a composition comprising from 0.01 to 1.0 gamma-terpinene is a vehicle is not novel (see US Patent No. 5591435).

Inventorship Notice

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
